Mockup Review Notes 11/6

Creative Director: AnaElda Ramos
Designer: Clara Du

- How much info should be on each subpage…? They could be short and simple – "just for the experience of looking at it"
- For subpages – potentially have snippets of design description within geometry
- Color over black and white – images in nav don't have to be grayscale
- Mockup A might be easier to build than Mockup B, but adding a background box at low opacity behind the text boxes might help with legibility – this fix might make Mockup B more feasible
- The shapes are nice! Could try to have them in absolute position overlapping the text boxes ("kind of like sticky notes")
